

## Girls in engineering

**Yvonne Reyes**, center, helps organize the parts to be used to build the mini dance pad at the first Girls in Engineering Fair at St. Joan Antida High School, Milwaukee, on Tuesday, May 17. At left is St. Joan Antida senior, Priscila Marmolejo and right is Arleth Perez from Greenfield Middle School. Since 2005, St. Joan Antida has participated in Project Lead the Way and since 2009, the school has partnered with the Milwaukee School of Engineering to further strengthen its STEM (Science, Technology, Engineering, and Mathematics) programs. More photos from the fair can be viewed and purchased at <http://photos.chnonline.org>. (Catholic Herald photo by Juan C. Medina)
