

Supply List Suggestions 2011-2012

Once students reach the high school level, they learn to do much of their organizing and planning on their own. However, many families have requested a basic supply list to help them plan their needs for the school year. Below, you will find some suggestions of the basics that every student will need. However, teachers may request additional items throughout the year and families may have additional items that they want to supply for their students. We leave this decision up to each family.

Please note that at SJA, each student is provided with her own individual locker. Students are permitted to carry small purses during the day, but are not permitted to carry large purses or backpacks. Those must be put in the locker during the day. So, when purchasing larger supply items, please consider the ease of which students can carry them around in their arms during the day.
